Re: 2019 Complete Streets Annual List of Projects

The Bernalillo County Board of Commissioners adopted a Complete Streets Ordinance (No. 2015-21) in June of 2015. The ordinance requires that all construction and maintenance projects on collector and arterial roadways - optional in the rural East Mountains - be designed to incorporate complete streets components. Improvements may include accessible sidewalks, bike lanes, transit shelters, appropriate lane widths, traffic calming, pedestrian crossings, and landscaping. Some local streets where sidewalks are upgraded to meet ADA requirements are also included.

The ordinance also requires the Public Works Division submit a memorandum each calendar year listing upcoming complete streets projects. The attached list identifies \$58.5 million in current projects by location, type, scope, cost, funding, components (and modifications if necessary), and scheduled phase of construction.

The list also identifies \$31.5 million in federal funding requests to Federal Highways Administration (FHWA) Central Federal Lands, the Mid Region Council of Government (MRCOG) and New Mexico Department of Transportation (NMDOT) for the 2020-2025 transportation improvement program (TIP). Federal funds are generally matched approximately 15% with local GO bond funds.

Projects completed on last year's list include Paradise Hills ADA sidewalk improvements phase 1 on several neighborhood streets, Blake Road and Coors Boulevard intersection with sidewalks and bike lanes along Blake Road, and Barcelona Road phase 1 sidewalks and bike lanes. Several projects in design and on the list previously will go to construction this year such as Second Street NW ADA sidewalks, Second Street SW Trail phase 2, Bridge Boulevard Reconstruction phase 1, and Sunset Road SW phase 1.
